Lead Librarian for Metadata Technologies

- Maintains high-level supervision over the unit
- Primary outlet for metadata services
- Identifies problem spaces through direct contact and committees
- Pushes problem spaces to Metadata Technologies Librarian or University Library Specialist

Metadata Technologies Librarian

- Provides support for problem spaces
- Designs projects that aim to solve the problem spaces
- Works with University Library Specialist and University Library Technicians to accomplish projects
- Identifies and facilitates training opportunities for staff in the unit

University Library Specialist

- Primary supervisor for DPP University Library Technicians
- Manages workforce of the unit
- Acts as project lead for various metadata projects

University Library Technicians

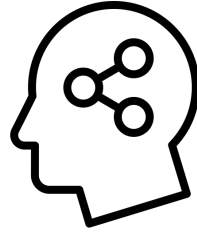

- The unit's workforce
- Perform core work of the unit
- Provide assistance for metadata projects

Lead Librarian for Metadata Technologies identifies a problem space. Passes problem space to Metadata Technologies Librarian

Metadata Technologies Librarian designs project to resolve problem space

Metadata Technologies Librarian works with the University Library Specialist to assign work to the appropriate University Library Technicians

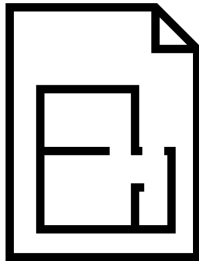

Design project to resolve a problem space

Created by Tomas Knopp
from Noun Project

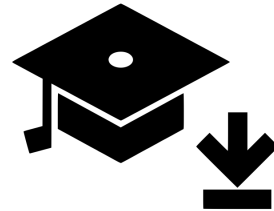

Identify skillsets needed to complete project

Created by Kokota
from Noun Project

Employ training to fill in knowledge gaps

Created by Hector
from Noun Project
